

Join the **OPTIMODALITY EUROCLUB**

On Tuesday December 7th, 2010, under the sponsorship of the European Parliament in Brussels, the Charter of the **Optimodality Euroclub** was signed by all the parties who attended.

We would be pleased to invite you to join and promote the Optimodality Euroclub and to join us formally.

To lend a broad European dimension to the development of our projects, the **Optimodality Euroclub** will have four objectives in 2011:

- ✓ to organize regular meetings and debates between its members on the topic of the **optimodality**,
- ✓ to promote **optimodal** projects having a European dimension,
- ✓ to organize contacts with the representatives of the Community institutions,
- ✓ to define and implement a framework to allow for the development of **optimodality** in Europe and integration with the European optimodal network.

Several issues are under debate at present and conclusions will be presented shortly in the following areas: the reduction of greenhouse gas emissions, the future of transport programs (TEN T, MARCO POLO ..), defining the scope of European Optimodal projects.

All ideas are welcome.

If you wish to participate in the first assembly in the spring of 2011, please fill in the **Declaration of intent** (attached) indicating your contact details clearly.

If you have any questions, please do not hesitate to contact one of the following:
